Round:	2	Maker's Name	Bill Rau
---------------	----------	---------------------	-----------------

Image No:	1	Image Title:	Sentinel	

BURKE COMMENTS AND RATINGS

Comments: The colors appear about right and the framing limb does help to increase interest. The main structure does depict an identifiable place. However, the scene should be larger to the story can be better appreciated.

Improvements: A closer view probably would add impact. The colors can be enhanced somewhat.

Visual Feedback: Yes

Interest: 3.0 Technical: 3.0 Composition: 3.0

DOERRIE COMMENTS AND RATINGS

Comments: Nice composition in framing the rock formation with the tree/branch.

Improvements: Unfortunately, I don't think there is a lot you can do to overcome the rather flat light other than shooting this earlier/later in the day. Where are some good storm clouds when we need them?!

Visual Feedback: No

Interest: Good Technical: Improvements helpful Composition: Above average

SUKUMAR COMMENTS AND RATINGS

Image No: 2 **Image Title:** Square Butte

BURKE COMMENTS AND RATINGS

Comments: You did a pretty job of establishing a time and a place. The clouds do add interest. Perhaps by move closer to the barn and somewhat to one side (if possible), the overall interest of the scene would be increased; the head-on view does not provide the strongest image.

Improvements: Some color enhancement would be an improvement, also.

Visual Feedback: Yes

Interest: Good **Technical:** Good **Composition:** Improvements helpful.

DOERRIE COMMENTS AND RATINGS

Comments: Ah ... here are the storm clouds! Interesting old barn.

Improvements: I'm somewhat bothered by the horizon line being very close to the center of the image. My inclination probably would be to crop this to a vertical image. I'll try that and see what I think.

Visual Feedback: Yes

Interest: Above average **Technical:** Good **Composition:** Improvements helpful
